"VIA SAN FRANCISCO

MEANS FAST SERVICE, FREQUENT SAILING

SAN FRANCISCO'S preeminence as a Crossroad of World Commerce makes it a Mecca for many whose travels are linked with international trade. Such visitors, when taken on a fact-seeking tour of the capacious harbor, frequently voice the inquiry

WHY is San Francisco so consistently the preferred Port of entry and exit for waterborne commerce that moves via the West coast?

There are two major reasons for shippers' preference for San Francisco. They are:

1 The Port is noted for frequency of ship sailing to, and arrivals from, the principal world trade ports. During 1951 an average of one ship every hour — 24 each day — passed through San Francisco's Golden Gate bound to or from all parts of the globe. This frequency of ship service saves time and money for sellers and buyers, i. e. WORLD TRADERS.

2 The Port of San Francisco is noted for superior accommodations for ships (18 miles of berthing space), and modern cargo-handling facilities and equipment. Packaged goods are palletized. Power jitneys are both fork-lift and hydraulic side clamps. Bulk facilities for grain (wheat, barley, rice, etc.) copra, vegetable oil.

A fully staffed Traffic Dept. is maintained to aid shippers with their problems. Such service is free. Inquiries invited. Communicate with:

- 1 --- Derrick Barge, Length of Boom 106 feet, Lifting Capacity 20 Tons

TRAVELING CRANES:

- 1 --- Lifting Capacity 50 Tons - Gantry
- 8 --- Lifting Capacity 30 Tons - Gantry
- 3 --- Lifting Capacity 23 Tons - Gantry
- 4 --- Lifting Capacity 20 Tons - Gantry
- 11 --- Lifting Capacity 30 Tons - Locomotive

BUILDING WAYS:

- 3 --- Length 424 feet, Width 72 feet
- 1 --- Length 550 feet, Width 36 feet
- 2 --- Length 400 feet, Width 98 feet
- 2 --- Length 660 feet, Width 98 feet

TUG BOATS:

- 27 --- Ranging from 135 H. P. to 1900 H. P.

WATER TAXIS:

- 4 --- For Servicing Vessels at Anchorage

SALVAGE EQUIPMENT:

- 5 Sets Beach Gear which includes anchors, wire rope pennants, blocks, etc.
- 13 Gasoline Driven Salvage Pumps ranging from 3 inch to 10 inch with sufficient hose to operate all Pumps Simultaneously
- 2 L.P. Compressors, Capacity 1000 cu. ft. at 11 lbs.
- 2 Air Compressors - 105 cu. ft.
- 4 Torque Drive Winches - 200 H. P.
- 2 Gasoline Driven Drum Hoists
- 1 Complete Hi-Line Trolley
- 1 Rocket Gun with 2,000 ft. line throwing capacity
- 2 Self Propelled completely equipped diving work boats speed 9-10 knots
- 1 Jetting barge equipped with full diving gear, underwater jetting equipment and high pressure pump
- 1 Complete oxy-arc Underwater Cutting and Burning equipment
- 1 Complete Underwater Welding equipment
- 1 Underwater acetylene and hydrogen burning gear
- 1 Complete set of equipment for cleaning and polishing propellers underwater
- 1 Complete set of Facilities for sealing-off stern tubes and outboard blanks for any size or type of overboard intake or discharge of vessels
- 2 Diving barges with "A" frames completely equipped
- 1 - 3/4 ton truck completely equipped for diving jobs not available by water transportation
- 12 Sets of Commercial Diving gear available with communication systems
- Underwater saws, drilling machines and other specialized equipment

FOR SAN FRANCISCO HARBOR

FERRY BUILDING, SAN FRANCISCO 6, CALIFORNIA

EXPLANATION OF STATISTICS

"Foreign Trade through San Francisco Customs District" includes waterborne foreign trade laden or unladen in the Customs District. The San Francisco Customs District includes all of that part of California north of the northern boundaries of San Luis Obispo, Kern and San Bernardino Counties and the States of Nevada and Utah. Nearly all of the waterborne foreign trade passes through ports on San Francisco Bay or on waterways tributary to the Bay. Country information is for foreign port of loading or unloading and is not necessarily the country of final destination or origin.

Foreign goods as well as domestic goods and warehouse entries as well as consumption entries are included in general export and import data. Goods moving intransit through San Francisco Customs District from one foreign country to another that were not entered as imports are not included in regular export or import data but are in a separate section. (See below) Foreign goods coming into Foreign Trade Zone No. 3 are not included in import statistics until such time as a customs entry may be made.

The basic sources of this report are the Shipper's Export Declaration and the import entries, statistical copies of which are forwarded to the Bureau of the Census. "Foreign Trade through San Francisco Customs District" is prepared from information supplied by the Bureau of Census from the declarations and entries.

Shipments: A Department of Defense operated vessels do not require export declarations so are not included in "Foreign Trade through San Francisco Customs District." This class of government controlled shipments includes not only shipments on military transports but also shipments on commercial vessels by the Department of Defense under time, voyage or space charter arrangements. Starting in 1949 certain goods of military significance, such as military vehicles, or ordnance items and military vessels and aircraft, were combined in special categories and reported only as "special category". For 1951 no information on special category type goods (even though exported "commercially") has been made public by the Bureau of Census separately by customs district, so this report excludes entirely such items. United States Government foreign aid handled through private trading channels (except "special category") is included in the regular export data.

In addition to foreign trade, this report includes information on trade with the Territory of Hawaii (dry cargo only). Data on trade with the other territories is not available.

Foreign Exports (or Re-exports) and Intransit Trade

Foreign exports are exports of foreign merchandise for which a customs entry has been filed and which is exported in the same form in which it was imported. Foreign goods which are processed or manufactured and are exported are classified as domestic goods. Re-exports are listed separately in this report but they are a subdivision of general exports and not an addition to them.

The intransit trade includes merchandise moving through the United States from one foreign country to another which is not entered as an import. This includes goods transferred from one vessel to another at the port and also merchandise stored or moving through the United States under customs supervision. Intransit trade is listed in a separate section and is an addition to regular exports and imports.

The Progressive PORT of SAN FRANCISCO

offers shippers
and world traders
more advantages
than you
could shake
a stick at

As a major crossroads of world commerce, the Port keeps consistently in the forefront as a "Good Provider" of facilities and service for waterborne traffic. The many advantages offered shippers include:

FREQUENCY OF SAILINGS — Yearly average 10 vessels per day.

THROUGH EXPORT BILLS OF LADING—Single billing from origin to destination.

FREEDOM FROM ACCESSORIAL CHARGES — On exports and imports, except local.

FOREIGN TRADE (FREE) ZONE — Rare privileges and savings for traders.

TRANS-SHIPMENT WITH MINIMUM DELAY—Transferring from major to lesser trade routes.

CONTINUOUS BELT RAILROAD SWITCHING—24-hour service to and from piers.

UNLIMITED BERTHING SPACE—42 deepwater piers, 18 miles of berths.

SPECIAL SHIPSIDE FACILITIES — Refrigeration Terminal, Bulk Grain Elevator, Bulk Copra Terminal, Bulk Vegetable Oil Tanks.

AMPLE SHORESIDE CARGO SPACE—10 million square feet, covered and open.

CONNECTIONS WITH FOUR TRUNK LINE RAILROADS—Southern Pacific, Western Pacific, Santa Fe, and Northwestern Pacific.

TRUCK LINES—Local, coast, and transcontinental.

The Port of San Francisco solicits your business

COMPILED FROM

BUREAU OF CENSUS RECORDS, DEPARTMENT OF COMMERCE

THE PORT OF SAN FRANCISCO

Dominant Shipping Gateway of the Pacific Coast

48.6% OF 1952 IMPORTS:	S. F. Customs District: \$341,900,000 Total for Coast: \$703,200,000
34.8% OF 1952 EXPORTS:	S. F. Customs District: \$390,800,000 Total for Coast: \$1,121,900,000
40.1% OF 2-WAY VALUE:	S. F. Customs District: \$732,700,000 Total for Coast: \$1,825,100,000

IMPORT TONS OF CARGO: SAN FRANCISCO CUSTOMS DIST.

41.7% INCREASE OVER 1951. TOTAL TONS: 2,222,974

EXPORT TONS OF CARGO:

30% INCREASE OVER 1951. TOTAL TONS: 3,793,846

30.9% OF COAST TOTAL 19,471,450 TONS IMPORT-EXPORT

NOTE 1: Customs records for 1952 show that the San Francisco District scored the most substantial increase in overall foreign trade among all West Coast customs areas.

NOTE 2: The San Francisco area's two-way total of 6,016,820 short tons last year represents a new peacetime high both ways.

NOTE 3: With dollar value of \$341,900,000 in imports and \$390,800,000 in exports, San Francisco area foreign trade was within \$50,000,000 of being in balance.

HIGH FREQUENCY OF SAILINGS

The Blue Peter is the international sailing day signal flag, a familiar sight along the water fronts of the world. During the year 1952 the Blue Peter was hoisted in these waters 4,899 times. That meant an average of 13 ships a day outward bound through the Golden Gate with American goods for world markets.

OTHER FACILITIES AND EQUIPMENT AVAILABLE---

FLOATING DRYDOCKS:

- 1 --- Length 584 feet; Width 92 feet; Capacity 22,000 Tons
- 1 --- Length 528 feet; Width 81 feet; Capacity 14,000 Tons
- 1 --- Length 524 feet; Width 70 feet; Capacity 11,000 Tons
- 1 --- Length 435 feet; Width 68 feet; Capacity 6,500 Tons

DERRICKS:

- 1 --- Derrick Barge, Length of Boom 105 feet, Lifting Capacity 100 Tons
- 1 --- Derrick Barge, Length of Boom 106 feet, Lifting Capacity 50 Tons
- 1 --- Derrick Barge, Length of Boom 109 feet, Lifting Capacity 50 Tons
- 1 --- Derrick Barge, Length of Boom 108 feet, Lifting Capacity 100 Tons
- 1 --- Derrick Barge, Length of Boom 95 feet, Lifting Capacity 75 Tons
- 1 --- Derrick Barge, Length of Boom 115 feet, Lifting Capacity 35 Tons
- 1 --- Derrick Barge, Length of Boom 100 feet, Lifting Capacity 35 Tons
- 1 --- Derrick Barge, Length of Boom 106 feet, Lifting Capacity 20 Tons

TRAVELING CRANES:

- 1 --- Lifting Capacity 50 Tons - Gantry
- 8 --- Lifting Capacity 30 Tons - Gantry
- 3 --- Lifting Capacity 23 Tons - Gantry
- 4 --- Lifting Capacity 20 Tons - Gantry
- 11 --- Lifting Capacity 30 Tons - Locomotive

BUILDING WAYS:

- 3 --- Length 424 feet, Width 72 feet
- 1 --- Length 550 feet, Width 96 feet
- 2 --- Length 400 feet, Width 98 feet
- 2 --- Length 660 feet, Width 98 feet

TUG BOATS:

- 27 --- Ranging from 135 H. P. to 1500 H. P.

WATER TAXIS:

- 4 --- For Servicing Vessels at Anchorage

SALVAGE EQUIPMENT:

- 5 Sets Beach Gear which includes anchors, wire rope pennants, blocks, etc.
- 18 Gasoline Driven Salvage Pumps ranging from 3 inch to 10 inch with sufficient hose to operate all Pumps Simultaneously
- 2 L.P. Compressors, Capacity 1000 cu. ft. at 11 lbs.
- 2 Air Compressors - 105 cu. ft.
- 4 Torque Drive Winches - 200 H. P.
- 2 Gasoline Driven Drum Hoists
- 1 Complete Hi-Line Trolley
- 1 Rocket Gun with 2,000 ft. line throwing capacity
- 2 Self Propelled completely equipped diving work boats speed 9-10 knots
- 1 Jetting barge equipped with full diving gear, underwater jetting equipment and high pressure pump
- 1 Complete oxy-arc Underwater Cutting and Burning Equipment
- 1 Complete Underwater Welding Equipment
- 1 Underwater Acetylene and Hydrogen burning gear
- 1 Complete set of equipment for cleaning and polishing propellers underwater
- 1 Complete set of Facilities for sealing-off stern tubes and outboard blanks for any size or type of overboard intake or discharge of vessels
- 2 Diving barges with "A" frames completely equipped
- 1 - 3/4 ton truck completely equipped for diving jobs not available by water transportation
- 12 Sets of Commercial Diving gear available with communication systems
- Underwater saws, drilling machines and other specialized equipment

FOR SAN FRANCISCO HARBOR

FERRY BUILDING, SAN FRANCISCO 6, CALIFORNIA

EXPLANATION OF STATISTICS

"Foreign Trade through San Francisco Customs District" includes waterborne foreign trade laden or unladen in the Customs District. The San Francisco Customs District includes all of that part of California north of the northern boundaries of San Luis Obispo, Kern and San Bernardino Counties and the States of Nevada and Utah. Nearly all of the waterborne foreign trade passes through ports on San Francisco Bay or on waterways tributary to the Bay. Country information is for the country of FINAL DESTINATION OR ORIGIN. THIS IS A CHANGE from the basis of country designation for 1951 and recent postwar years when the country of unloading or lading was used.

Foreign goods as well as domestic goods and warehouse entries as well as consumption entries are included in general export and import data. Goods moving intransit through San Francisco Customs District from one foreign country to another that were not entered as imports are not included in regular export or import data but are in a separate section. (See below) Foreign goods coming into Foreign Trade Zone No. 3 are not included in import statistics until such time as a customs entry may be made.

The basic sources of this report are the Shipper's Export Declaration and the import entries, statistical copies of which are forwarded to the United States Bureau of the Census. "Foreign Trade through San Francisco Customs District" is prepared from information supplied by the Bureau of Census from the declarations and entries.

Shipments on Department of Defense-operated vessels do not require export declarations and are not included in "Foreign Trade through San Francisco Customs District." This class of government controlled shipments includes not only shipments on military transports but also shipments on commercial vessels by the Department of Defense under time, voyage or space charter arrangements. Starting in 1949 certain goods of military significance, such as military vehicles, ordnance items and military vessels and aircraft, were combined in special categories and reported only as "special category". For 1952 no information on special category type goods (even though exported "commercially") has been made public by the Bureau of Census separately by customs district, so this report excludes entirely such items. United States Government foreign aid handled through private trading channels (except "special category") is included in the regular export data.

Both exports and imports of petroleum products and other bulk oils on tanker-type vessels are shown in separate sections. The information in the tanker reports is also included in the regular export-import listings and represents a detail on, not an addition to, those listings.

In addition to foreign trade, this report includes information on trade with the Territory of Hawaii (dry cargo only) and shipments to Puerto Rico. Data on trade with the other territories is not available.

Foreign Exports (or Re-exports) and Intransit Trade

Foreign exports are exports of foreign merchandise for which a customs entry has been filed and which is exported in the same form in which it was imported. Foreign goods which are processed or manufactured and are exported are classified as domestic goods. Re-exports are listed separately in this report but they are a subdivision of general exports and not an addition to them.

The intransit trade includes merchandise moving through the United States from one foreign country to another which is not entered as an import. This includes goods transferred from one vessel to another at the port and also merchandise stored or moving through the United States under customs supervision. Intransit trade is listed in a separate section and is an addition to regular exports and imports.

THE CITY AND PORT

An aerial photograph of San Francisco, showing the city's grid-like street pattern, the bay, and the Golden Gate Bridge in the lower left corner. The image is split vertically by a dark line.

THE SHIPPING LANES OF THE WORLD lead direct to every pier in this magnificent harbor. It is a port where no artificial expedients are necessary—no breakwaters, no turning basins—and no “run for the open sea” when the wind blows. Vessels pass through no tortuous entrance or dog-leg channels; there’s clear sailing from blue water all the way in. And from the meeting of bay and ocean at the mile-wide Golden Gate, it’s only a matter of minutes until a vessel is moored and cargo handling begins. This means a saving of time and money for shippers, for ship owners, and for operators.

OF SAN FRANCISCO

"Crossroads of the World"

An aerial photograph of San Francisco, showing the city's grid pattern, the Golden Gate Bridge, and the surrounding water. The image is in black and white and has a vintage, slightly grainy quality.

A STRIKING FULL-DRESS PORTRAIT, EXTENDING FROM
THE GOLDEN GATE TO THE SAN FRANCISCO INTER-
NATIONAL AIRPORT

The Port of San Francisco

Check List of Noteworthy Facts:

- ✓ High frequency of sailings saves days and dollars for shippers.
- ✓ Shorter trans-Pacific ocean enroute than other California ports.
- ✓ Trans-Pacific exporters can get north morning delivery at San Francisco by expedited rail service from Middle West.
- ✓ Trans-Pacific importers can get goods to Mid-West by cross-country motor carrier service within seven days.
- ✓ A leading Port of Call for cruise—new Alameda State Cruise Terminal expected to be in operation by November, 1957.
- ✓ Foreign Trade Zone doubled in area to 14 acres.
- ✓ Bulk grain elevator-terminal has been doubled to a capacity of one million bushels—barley, wheat, rice.
- ✓ Bulk Copra Terminal on elevator, cargo discharged by bucket.
- ✓ Refrigeration Terminal with 150,000 cu. ft. of processing space.
- ✓ Forty-two deepwater piers provide 18 miles of berthing space.
- ✓ Under extensive remodeling program, several piers have been—and others will be—reconstructed to provide maximum maneuverability for trucks and semitrailers.
- ✓ World Trade Center project at Ferry Building, now in planning stage, will provide a full-scale International Mall.

The Port management's forward planning aims to develop more world trade for California by providing improved facilities to handle it. The trade expansion potential of this area is unlimited.
